

Travis V. Heavener

travis@wowtravis.com | wowtravis.com | github.com/travis-heavener | [in/travis-heavener](https://in.travis-heavener)

EDUCATION

Rensselaer Polytechnic Institute

Troy, NY

Bachelor of Science in IT & Web Science, GPA: 3.74

Expected May 2027

- Relevant coursework: Web Development, IT Resource Management, Foundations of HCI

EXPERIENCE

Accurion Advisors

Reston, VA

IT & Systems Intern

Apr 2026 – Present

- Built responsive website architecture deployed via GitHub and Vercel pipeline.
- Integrated Cloudflare Turnstile and Vercel serverless functions for site backend.
- Administered Microsoft 365 services and assisted Dropbox to SharePoint migration.
- Optimized site performance, SEO/GEO metadata, navigation, and DNS routing.

Next Phase Solutions and Services

Columbia, MD

Information Technology Intern

Summer 2023 & 2025

- Built Python automations using Google Cloud APIs to streamline user onboarding/offboarding.
- Managed AWS infrastructure (EC2, Lambda, DynamoDB) supporting internal production.
- Validated OS images in Hyper-V prior to enterprise-wide laptop deployments.
- Participated in twice-weekly Scrum meetings with IT staff.

Hammerdown Barbeque

Aldie, VA

Senior Employee

2020 – 2023; Summer 2024

- Handled daily customer relations, food preparation, employee training, and event organization.

PROJECTS

Mercury HTTP Server | C/C++, Python, GitHub, Docker

Jan 2025 – Present

- RFC-compliant HTTP server for Windows/Linux, focused on performance and portability.
- Implemented multithreaded request handling using async I/O in C++.
- Built Python + Docker test suite with hundreds of cases and configurations.
- Set up CI/CD with GitHub Actions and managed bugs via GitHub Issues.

BinGo - Independent Research Project | Node.js, React Native, Agile (Scrum)

Sep 2022 – Jun 2023

- Designed and built a mobile app that encourages physical activity via digital bingo cards.
- Followed Agile methodologies and Scrum with weekly standups and backlog management.
- Used React Native and EAS to build & deploy Android apps.
